- AMINO ACID COMPLEX STRENGTHENS HAIR FIBERS
- SAW PALMETTO INHIBITS DHT IN FOLLICLES

INTENDED AS PART OF AN EFFECTIVE DAILY LOSS PREVENTION
& REGROWTH REGIMEN INVOLVING PRESCRIPTION FORMULA 82M

Formula 82S Hair Loss Shampoo is designed to prevent hair loss, strengthen hair fibers and provide hair with soft, natural texture. 82S contains 100% natural and eco-certified cleansers and the active ingredient Saw Palmetto, a natural, botanically-derived 5-alpha reductase inhibitor that has been shown in studies to reduce DHT, the primary cause of hair loss. 82S helps new hair grow stronger and existing hair recover its vitality due to a highly effective blend of natural extracts, amino acids and vitamins.

ACTIVE HAIR LOSS PREVENTION

SAW PALMETTO (SERENOA REPENS): A contributing factor in Androgenetic Alopecia is the conversion of Testosterone to Dihydrotestosterone (DHT) via the enzyme 5- α Reductase (5AR). Serenoa Repens is a botanically-derived 5AR inhibitor that has been shown in studies to have a positive effect in reducing hair loss.

CLEANSING AGENTS

L-GLUTAMIC AMINO ACID & COCONUT FATTY ACIDS: Eco-certified surfactant that is plant-derived and biodegradable. In addition to being an excellent (gentle) cleanser, it exhibits conditioning properties that leaves hair feeling silky.

CONDITIONING AGENTS

BABASSU OIL: Eco-certified vegetable oil with cleansing and foaming properties. Conditions and repairs.

PANTHENOL (PROVITAMIN 5): Readily binds to hair, assisting hair in increasing and retaining its natural moisture. Helps fortify collagen in hair, promoting elasticity and hair strength.

SEAWEED EXTRACT: A natural source of essential vitamins and minerals that aid in skin cell and hair elasticity, and help keep hair and skin revitalized, moisturized and protected.

NOURISHING AGENTS

AMINO ACIDS: Our specially formulated Amino Acid compound has been shown in studies to lead to increased tensile strength in hair.

BIOTIN: Improves hair's natural barrier function by promoting the formation of intercellular lipids and reducing transepidermal water loss.

PHYTOKERATINE: Prevents damage from sources of heat and UV, and reduces split ends. Returns strength and vitality to damaged hair.

VITAMIN A: A powerful anti-oxidant that prevents and repairs cell and tissue damage.
